Look Book 2026

Quality, value and service are the foundations of our company philosophy. A UK based, family run company started in 1990, we have a reputation for offering carefully curated designs to suit all tastes, introducing new innovative products and providing outstanding customer service and delivery. We stand true to our core values of investing not just in our furniture, but in our people too.

We continue to take inspiration from our valued customers and we believe our continued passion, enthusiasm and experience, all gained in the past 35 years, stands us apart from the crowd. All of our products are beautifully designed to be durable, functional and offer total comfort, without sacrificing style.

Westminster reserve the right to alter prices and specifications without prior notice.

## U&V Fabrics

We take pride in crafting our garden furniture using premium U&V fabrics; a trusted outdoor material designed to withstand the harshest elements. Made from 320gsm, 100% solution dyed Polyester, this high performance fabric is resistant to fading, stains, and UV damage, and is backed by a 5 year guarantee.

We also use an advanced, high performance quick dry foam designed specifically for outdoor cushions and furniture. The porous open cell structure allows water to drain rapidly and fresh air to circulate freely. After a heavy downpour and in good weather conditions the furniture can be ready to use in 30 minutes.

Carbon

Pearl

## Fabric Maintenance

Even in the harshest of climates, our fabrics provide years of enjoyment. The fabric is weather resistant and can be cleaned simply with water. To remove more stubborn stains, use a mild solution of water and bleach followed by careful use of a pressure washer on a wide spray.

### Easy Care

Our fabric furniture is considered low maintenance. Spills and stains can be cleaned using soapy water, or a mild bleach solution for more stubborn stains.

### Weather Ready

Our quick dry foam technology lets water pass through quickly, meaning your furniture will be dry and ready-to-use again in no time.

### Fade Resistant

Our products are upholstered using 100% solution dyed fabrics. This means that the fabric yarns are coloured all the way through, creating a more fade resistant material.

### Built to last

Our range of fabrics come with a 5 year guarantee, covering any manufacturing faults or defects within the material and quick dry foam.

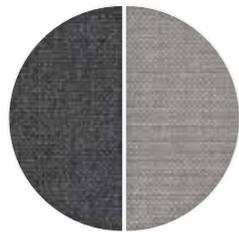

For full guarantee information, please visit our website.

## Material Information

### U&V Fabric

Made from 320gsm 100% solution dyed Polyester fibres with pigmentation added prior to extrusion, offering the rich look and feel of cotton, but doesn't fade or degrade.

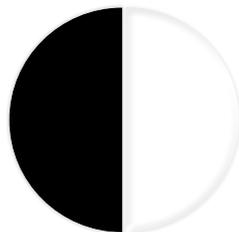

### Sunbrella® Fabric

Made from 290gsm 100% solution dyed Acrylic fibres with pigmentation added prior to extrusion. Natte fabric offers a lush look and soft feel, all woven in a basket style pattern.

### Quick Dry Foam

Advanced, high performance foam designed specifically for outdoors. The porous open-cell structure allows water to drain rapidly and fresh air to circulate freely, allowing the fabric to dry within the hour.

### Powder Coated Aluminium

Aluminium is a proven lightweight material which is extremely strong and durable. Our aluminium is powder coated to prevent oxidation and ensure years of outdoor use.

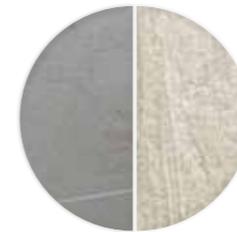

### Sling

Textilene is a manmade mesh fabric woven from polyester with a PVC coating. Incredibly durable, it is resistant to fading, easy to clean and resistant to mould and mildew.

### Twisted Rope

Our twisted rope consists of a patented 3 layer structure with a Polyester wrapped PVC core. It has a exceptional resistance to fading and degradation and has high tensile strength.

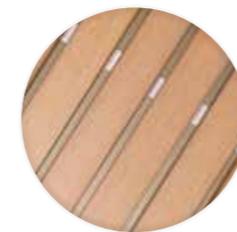

### Sintered Stone Tops

Our sintered stone tabletops are highly scratch, UV and temperature resistant. Hygienic and very easy to clean, it has almost zero water absorption so can be left outside all year round.

### Teak

Westminster uses solid hardwood, sourced and harvested ethically. The naturally occurring oil within the wood makes it weatherproof and strong. As it weathers naturally it develops a silvery/grey look.

### Polyteak

Polyteak is a man-made environmentally friendly material that looks and feels like real Teak wood. It is 100% water resistant, easy clean and is resistant to splitting.

### URBAN TAILOR Protective Covers

Premium breathable, water repellent and UV resistant 900D, 100% Polyester fabric. High tensile strength and tear resistant. Has integrated ventilation to prevent condensation and mildew.

## Leo

Leo is influenced by 1960s design, defined by soft curves, solid Teak frames and distinctive rope detailing. The collection balances strong architectural lines with a relaxed, contemporary feel, making it suitable for both dining and lounging outdoors.

Each piece is crafted from FSC certified Teak in a dark stained finish and supplied with a matching top-up treatment to help maintain its appearance over time. Cushions are filled with quick dry foam, allowing them to dry in approximately 30 minutes after rainfall, so the furniture can remain outside all year round with minimal maintenance. Protective covers are included for added convenience.

## Nofi

Nofi is a contemporary outdoor furniture range that delivers effortless comfort, durability, and understated style for garden and patio living. Built on powder coated aluminium frames with heat transfer Teak effect accents, the design balances modern minimalism with a subtle warmth that works across both lounge and social settings.

Deep, supportive cushions featuring quick dry foam drain efficiently and dry rapidly after rain. Hard wearing, weather resistant upholstery withstands sunlight, moisture and daily use with minimal maintenance. Construction is engineered for low maintenance and long lasting performance, so the collection can stay in place through the seasons without compromise.

# Parasols

Bring style and practical shade to your outdoor spaces with Westminster parasols, designed to complement any garden, terrace, or balcony. From compact center pole models to robust, multiple position cantilevers, there's a parasol to suit every outdoor setup.

Each parasol is built with a strong powder coated aluminium frame and a durable, water repellent canopy that protects against the elements and UV rays. Tension springs keep the fabric taut and secure, while an easy winding system allows effortless adjustment to create the perfect shaded area.

# Onda and Luna

A breakthrough in both design and function, made with illuminating LEDs. Available in Black or White with a Teak accent in three varying sizes.

The Pininfarina design team took the inspiration from the dynamism, elegance and purity of the ocean waves and the empty space that is created when a wave is broken, resulting in to a hollow or tube wave (Onda in Italian). "We have looked at the magic of nature to give life to Onda which is distinctive and, at the same time, able to be integrated in different environments.
