

Cushion colours

Our cushions are manufactured using Sunbrella[®], a colour-fast fabric that is made from a durable, all-weather, 100% solution-dyed, Teflon[®]-coated acrylic fibre. This fabric repels water, but cushions should not be left out in heavy rain for prolonged periods.

Rain[®] fabric has an additional barrier that makes the fabric waterproof and the surface of the cushion quick drying. Although the fabric is waterproof, zips and venting will allow ambient moisture from the atmosphere to enter the cushion. All cushions should be allowed to fully dry before being stored.

There is an additional charge for cushions in Sunbrella[®] Rain[®] fabric.

Whilst great care has been taken to reproduce fabric and material colours as accurately as possible, we cannot guarantee that the reproduction accurately represents true fabric textures and colours. Please take this into consideration as colours illustrated should only be used as a guide. Some images may contain discontinued fabric colours and furniture ranges.
